Starwood Olympics 2023-24 – Chess Rules & Regulations

Each player will play 1 game against one another in the same group (Round Robin)

Each League game will be played max 30 minutes (15 mins to each player). Whoever have more points in the board at the end of 30 mins. will be declared as winner. Points will be calculated as below

Top 4 from each group will be qualified for Quarter Finals.

Each Quarter/Semi Finals will be played for max 60 minutes (30 mins to each player). Whoever have more points in the board at the end of 60 mins. will be declared as winner. Points will be calculated as below

If a player exhausts his allowed minutes during the game, then the other player will be declared as winner with the available winning player points in the board.

 Points will be calculated as below
* 1 point to a pawn
* 3 points to a Knight / Bishop
* 5 points to a Rook
* 7 points to a Queen

Finals will be played without time restriction
